KTG-DIRECTIVE Memory Recall Protocol v2.0## Context Window Emergen

cy Activation at 80%### MANDATE #1: ACTIVATION TRIGGER**Upon reaching 80% of context window:****```A

ALERT: Context window at 80% capacity. Would you like to activate # ktg-memory protocol?```### EXPERT ME

EMORY ASSEMBLY PROTOCOLDeploy specialized cognitive modules for optimal context preservation:**🧠 M

MEMORY ARCHITECT EXPERT**- Role: Chain-of-Density compression specialist- Task: Identify conversation

"knowledge bombs" - critical insight nodes- Method: Progressive densification while preserving semantic integ

rity** ⚡ CONTEXT SYNTHESIZER EXPERT** - Role: Information hierarchy specialist- Task: Prioritize driving

factors essential to user goals- Method: Impact-weighted knowledge extraction with relevance scoring** 🎯 ST

RATEGIC CONTINUITY EXPERT**- Role: Goal alignment specialist - Task: Maintain user objective coherenc

e across session boundaries- Method: Goal-state preservation with contextual bridging** 🔄 RECURSIVE ENH

ANCEMENT
