GOOD.AI STRATEGIC BUSINESS PLAN

Perth's Premier Sovereign AI Solutions Provider

Executive Summary & Service Portfolio
Comprehensive Business Strategy with Competitive Market Positioning

I. EXECUTIVE SUMMARY

Vision Statement

To establish Good.AI as Perth's leading provider of sovereign AI solutions, empowering Western Australian SMEs with compliant, locally-deployed artificial intelligence that transforms business operations while maintaining complete data sovereignty and regulatory compliance.

Market Opportunity

The Australian chatbot market is experiencing explosive growth, valued at AUD $194.6 million in 2024 and projected to reach $1,456.8 million by 2033 (22.3% CAGR)[1]. Perth represents 8-10% of this national market, creating a $15-20 million addressable opportunity for specialized AI services.

Competitive Advantage

Good.AI occupies a unique market position as Perth's only AI consultancy explicitly focused on data sovereignty and PRIS Act compliance. Our technical partnerships with NVIDIA-backed infrastructure providers enable cutting-edge LLaMA family deployments while maintaining local data control.

Financial Outlook

Conservative Year 1 revenue target of $185,000 scaling to $650,000 by Year 3, with dual-scenario planning for both independent operations and strategic Trillet partnership acceleration.

II. COMPANY OVERVIEW

Mission Statement

Good.AI bridges the strategic gap between AI experimentation and transformative implementation for Western Australian businesses, providing sovereign AI solutions that deliver measurable ROI while ensuring complete regulatory compliance and data sovereignty.

Core Values

- **Data Sovereignty First**: All client data remains within Australian jurisdiction
- **Transparent Pricing**: Competitive, value-based pricing with no hidden costs
- **Strategic Partnership**: Long-term client relationships over transactional engagements
- **Technical Excellence**: Cutting-edge AI deployment with enterprise-grade reliability
- **Regulatory Compliance**: PRIS Act readiness and ongoing compliance support

Legal Structure

Good.AI Pty Ltd, incorporated in Western Australia, GST registered, with comprehensive professional indemnity and public liability insurance coverage.

III. MARKET ANALYSIS

Target Market Segmentation

Primary Market: Compliance-Driven SMEs (60% of focus)

- **Government Contractors**: Businesses serving WA state agencies requiring PRIS Act compliance
- **Regulated Industries**: Healthcare, legal, financial services with existing compliance frameworks
- **Market Size**: ~25,000 businesses in Greater Perth
- **Budget Range**: $15,000-$75,000 annual AI investment

Secondary Market: Growth-Focused SMEs (30% of focus)

- **Manufacturing & Mining Support**: Operational efficiency and safety automation
- **Professional Services**: Accounting, consulting, real estate automation
- **Market Size**: ~35,000 businesses in Greater Perth
- **Budget Range**: $5,000-$35,000 annual AI investment

Tertiary Market: Innovation Leaders (10% of focus)

- **Technology Companies**: AI-first organizations seeking specialized expertise
- **Startups & Scale-ups**: Rapid deployment and competitive advantage focus
- **Market Size**: ~5,000 businesses in Greater Perth
- **Budget Range**: $25,000-$150,000 annual AI investment

Competitive Landscape Analysis

Direct Competitors

1. **AI Automation Perth**: Basic template solutions ($440 setup + $88/month)
2. **Dilate Digital**: Full-service digital with AI components ($5K-$100K projects)
3. **HELLO PEOPLE**: Custom development focus ($25K-$100K+ projects)

Competitive Advantages

- **Sovereign AI Specialization**: Only provider explicitly focused on data sovereignty
- **PRIS Act Expertise**: First-mover advantage in compliance consulting
- **Hybrid Technical Approach**: Both cloud and on-premise deployment capabilities
- **Perth Market Focus**: Deep local market knowledge and relationships

IV. COMPREHENSIVE SERVICE PORTFOLIO

SERVICE TIER 1: STRATEGIC FOUNDATION SERVICES

4.1 Thorough Business Analysis → Audio/Video → Action Points

Service Description: Comprehensive business process analysis delivered through immersive audio-video presentations with actionable implementation roadmaps.

Process Flow:

1. **Discovery Phase** (Week 1): Stakeholder interviews, process mapping, data audit
2. **Analysis Phase** (Week 2): Gap analysis, opportunity identification, ROI modeling
3. **Presentation Phase** (Week 3): Professional video presentation with voice-over analysis
4. **Action Planning** (Week 4): Prioritized implementation roadmap with timeline and budget

Deliverables:

- 45-60 minute professional video analysis
- Executive summary document (10-15 pages)
- Action point matrix with priority rankings
- 90-day implementation timeline
- Budget projections for recommended solutions

Pricing Strategy:

- **Base Service**: $4,950 (competitive with Perth market $150-$450/hour consulting)
- **Express Option**: $3,750 (2-week delivery)

- **Comprehensive Option**: $6,500 (includes competitive analysis and market positioning)

4.2 Prompt Engineering Services (Online Delivery)

Service Description: Professional prompt optimization and AI interaction design delivered through secure online platforms.

Service Components:

- **Basic Prompt Optimization**: Template library and best practices ($850)
- **Custom Prompt Development**: Bespoke prompt engineering for specific use cases ($2,200)
- **Advanced Prompt Strategy**: Multi-model optimization and A/B testing ($4,400)
- **Ongoing Prompt Management**: Monthly optimization and performance monitoring ($650/month)

Technical Capabilities:

- GPT-4, Claude 3, Gemini Pro optimization
- Industry-specific prompt libraries
- Performance analytics and optimization
- Multi-language prompt development

4.3 Workshop & Guided Sessions

Service Description: Interactive training and implementation support delivered on-site or virtually.

Workshop Options:

- **AI Readiness Workshop**: 4-hour group session ($4,500 for up to 12 participants)
- **Executive AI Strategy Session**: Full-day leadership intensive ($7,500)
- **Technical Implementation Workshop**: 2-day hands-on training ($12,500)
- **Ongoing Guided Sessions**: Monthly progress reviews ($1,200/month)

SERVICE TIER 2: CORE AI IMPLEMENTATION SERVICES

4.4 Lean Chatbot Solutions (DeepSeek/Qwen Distilled)

Scenario A: Standalone Deployment

- **Technical Foundation**: DeepSeek-V2.5 or Qwen2.5-14B optimized for semantic search
- **Setup & Integration**: $8,500 (competitive with market $2,500-$15,000 range)
- **Monthly Operating**: $485/month (hosting, monitoring, updates)
- **Capabilities**: FAQ automation, basic customer service, appointment scheduling

- **Performance**: 500-1,000 queries/month capacity
- **Compliance**: Australian data residency, PRIS Act compatible

Scenario B: Trillet-Enhanced Deployment

- **Base Setup**: $8,500 + Trillet integration
- **Trillet Add-on**: $2,850 setup + $0.12/minute usage
- **Monthly Operating**: $485 base + variable usage costs
- **Enhanced Capabilities**: Voice integration, multi-channel support, advanced analytics
- **Performance**: Unlimited query capacity with voice capabilities
- **Compliance**: Enhanced audit trails, enterprise-grade security

4.5 Company Data-Trained Chatbots (NVIDIA Partnership)

Technical Specifications:

- **Model Foundation**: LLaMA 3.1-70B or 405B (via NVIDIA infrastructure partnership)
- **Data Processing**: Up to 50GB proprietary data integration
- **Training Pipeline**: Custom fine-tuning with company-specific knowledge base
- **Deployment Options**: On-premise, private cloud, or hybrid architecture

Scenario A: Sovereign Deployment

- **Development & Training**: $28,500 (competitive with $30K-$150K market range)
- **Hardware Requirements**: $15,000-$35,000 (depending on scale)
- **Monthly Operating**: $1,250/month (maintenance, updates, monitoring)
- **Data Capacity**: 10-50GB company data processing
- **Performance**: Enterprise-grade response times, unlimited queries

Scenario B: Trillet-Enhanced Version

- **Base Development**: $28,500
- **Trillet Professional Integration**: $4,500 + $0.11/minute
- **Monthly Operating**: $1,250 base + usage fees
- **Enhanced Features**: CRM integration, advanced analytics, multi-channel deployment
- **Performance**: Voice + text capabilities, omnichannel support

4.6 Advanced LLaMA Family Implementation (Tool Use Enabled)

Technical Architecture:

- **Core Model**: LLaMA 3.1-405B with function calling capabilities
- **Tool Integration**: Custom API connections, database queries, external service integration
- **Agent Framework**: Multi-step reasoning, planning, and execution capabilities

- **Security Layer**: Enterprise-grade access controls and audit logging

Scenario A: Full Sovereign Stack

- **Development & Integration**: $58,500 (premium positioning within $50K-$500K market)
- **Infrastructure**: $45,000-$85,000 (depending on complexity)
- **Monthly Operating**: $2,850/month (comprehensive monitoring and support)
- **Capabilities**: Complex task automation, multi-system integration, advanced reasoning
- **Performance**: Enterprise SLA, 99.9% uptime guarantee

Scenario B: Trillet Enterprise Integration

- **Base Development**: $58,500
- **Trillet Enterprise Add-on**: $8,500 + $0.09/minute
- **Monthly Operating**: $2,850 base + enterprise usage tiers
- **Enhanced Capabilities**: Advanced voice agents, CRM deep integration, analytics dashboard
- **Performance**: Omnichannel deployment, enterprise reporting, advanced telephony

SERVICE TIER 3: CREATIVE & BRANDING SOLUTIONS

4.7 AI-Powered Branding Solutions

Service Components:

- **Brand Analysis & AI Training**: Custom model training on brand guidelines and assets
- **Creative Asset Generation**: Logo variations, marketing materials, social media content
- **Merchandising Mockups**: Product visualization, packaging design, promotional materials
- **Brand Consistency Engine**: Automated brand guideline enforcement

Pricing Structure:

- **Brand Foundation Package**: $12,500 (analysis + basic asset generation)
- **Creative Suite Package**: $24,500 (comprehensive asset library + ongoing generation)
- **Enterprise Branding**: $45,000+ (full brand ecosystem with AI integration)
- **Monthly Creative Services**: $1,850/month (ongoing asset generation and optimization)

Technical Implementation:

- **Model Training**: Custom Stable Diffusion/DALL-E fine-tuning on brand assets
- **Asset Management**: Automated categorization, version control, usage tracking
- **Brand Compliance**: Automated checking against brand guidelines
- **Integration Options**: Direct integration with design tools, marketing platforms, CMS systems

V. COMPETITIVE PRICING STRATEGY

Pricing Philosophy

Good.AI employs value-based pricing positioned competitively within Perth's market dynamics, typically 5-10% below Sydney/Melbourne rates while maintaining premium positioning for specialized sovereign AI capabilities.

Market Positioning Analysis

Service Category	Market Range (AUD)	Good.AI Pricing	Positioning Strategy
Business Analysis	$150-$450/hour	$4,950 fixed project	Value-based alternative
Basic Chatbot	$30,000-$150,000	$8,500-$28,500	Competitive mid-market
Advanced AI	$50,000-$500,000+	$58,500+	Premium positioning
Monthly Support	$500-$5,000	$485-$2,850	Competitive with premium features

Pricing Differentiation Factors

- **Data Sovereignty Premium**: 15-20% premium for guaranteed Australian data residency
- **PRIS Act Compliance**: Additional value proposition without additional cost
- **Perth Market Adjustment**: 5-10% below eastern states pricing
- **Mining Sector Premium**: 20-30% uplift for specialized industry applications

VI. PARTNERSHIP STRATEGY: DUAL-SCENARIO PLANNING

Scenario A: Independent Operations Model

Strategic Advantages:

- Complete control over client relationships and service delivery
- Full margin retention on all services
- Flexibility in technology choices and implementation approaches
- Direct market positioning without partner dependencies

Revenue Projections:

- Year 1: $185,000 (conservative market entry)
- Year 2: $385,000 (established client base)
- Year 3: $650,000 (market leadership position)

Operational Requirements:

- Direct investment in infrastructure and capabilities

- Full responsibility for technical support and maintenance
- Independent sales and marketing efforts
- Complete risk assumption for delivery and performance

Scenario B: Trillet Partnership Integration Model

Strategic Advantages:

- Accelerated time-to-market for voice-enabled solutions
- Access to proven enterprise-grade infrastructure
- Enhanced service capabilities and competitive differentiation
- Reduced technical risk through proven platform partnership

Revenue Enhancement:

- 25-35% revenue uplift through enhanced service offerings
- Faster client acquisition through proven case studies
- Premium pricing justification through advanced capabilities
- Recurring revenue opportunities through usage-based models

Partnership Structure:

- **Technology Integration**: API-based integration with transparent pricing
- **Commercial Model**: Revenue sharing based on usage metrics
- **Support Model**: Tiered support with clear escalation paths
- **Risk Mitigation**: Service level agreements with performance guarantees

Recommended Approach: Phased Integration Strategy

Phase 1 (Months 1-6): Launch independent operations with basic chatbot services
Phase 2 (Months 7-12): Introduce Trillet partnership for voice-enabled solutions
Phase 3 (Year 2+): Full integration with advanced enterprise capabilities

This phased approach minimizes risk while maximizing optionality and market responsiveness.

VII. FINANCIAL PROJECTIONS SUMMARY

Independent Operations Scenario

- **Year 1 Revenue**: $185,000
- **Year 1 Net Profit**: $85,000 (46% margin)
- **Break-even**: Month 4
- **Initial Investment**: $25,000

Partnership Enhanced Scenario

- **Year 1 Revenue**: $245,000 (32% uplift)
- **Year 1 Net Profit**: $115,000 (47% margin)
- **Break-even**: Month 3
- **Initial Investment**: $32,000 (includes partnership integration)

Key Financial Metrics

- **Average Project Value**: $22,500 (independent) / $28,500 (partnership)
- **Client Lifetime Value**: $65,000 (independent) / $85,000 (partnership)
- **Customer Acquisition Cost**: $1,200 (independent) / $1,450 (partnership)
- **Monthly Recurring Revenue Target**: $15,000 by Month 12

The comprehensive service portfolio positions Good.AI as Perth's premier sovereign AI solutions provider, with flexible partnership strategies to maximize market opportunity while maintaining strategic independence and competitive advantage.
